

NYSORA Asia K-2 Mission 2014

Hotel Istana Kuala Lumpur • Kuala Lumpur 8-9 March

Nysora Asia Faculty List

- Admir Hadzic (USA)
- Alan Santos (USA)
- Jeff Gadsden (USA)
- John Laur (USA)
- Andres Missair (USA)
- Sanford Littwin (USA)
- John Wasnick (USA)
- Ali Nima Shariat (USA)
- David Provenzano (USA)
- Thomas Clark (USA)
- Emily Lin (USA)
- Jason Choi (USA)
- Alwin Chuan (Australia)
- Ana Lopez (Spain)
- Philippe Gautier (Belgium)
- Catherine Vandepitte (Belgium)
- Steve Roberts (UK)
- Mritunjay Varma (UK)
- Bernard Lee (Singapore)
- Victor Chee (Singapore)
- Shahridan Mohd Fathil (Singapore)
- Roman Zuercher (Switzerland)
- Julina Santhi Johami (Malaysia)
- Lia Montemayor (Philippines)

Localhost

Malaysian Society
of Anaesthesiologists

College of
Anaesthesiologists

Program

Saturday, 8-March-2014

Session (all day) 8:00 am – 5:30 pm

7:00 am	Registration
7:45 am	Opening Remarks
Each of the below presentations are 20 minute, followed by a 10 minute Q&A session	
8:00 am	Introduction, current state of the art and future directions for regional anesthesia
8:15 am	The Role of Ultrasound in Advanced Blocks (Neuraxial, Lumbar Plexus, Paravertebral) – Synthesis of Evidence and Own Experience
8:30 am	Dual guidance: Is nerve stimulation necessary in the era of US?
8:45 am	Connective Tissue of Peripheral Nerves: What is Intraneural vs. Perineural? Should You Ever Inject Intraneurally?
9:00 am	Learning curve to acquire adequate ultrasound-guided regional anesthesia skills: How many blocks are necessary?
9:15 am	Ultrasound guided Head and Neck Blocks: What is really practical?
9:30 am	Panel Discussion [all presenters]
10:00 am	Coffee Break
10:45 am	Ultrasound-guided paravertebral blocks: The Do's and Don't's
11:00 am	Regional Anesthesia and Cancer Recurrence
11:15 am	The role of paravertebral blocks in breast surgery
11:30 am	Long-Acting Local Anesthetics for Peripheral Nerve Blocks: What Do We Know and What is the Future?
11:45 am	Continuous Nerve Blocks: Summary of Evidence-Based Management Strategies
12:00 pm	Lunch Break
1:00 pm	Popliteal Sciatic Blocks: Evidence-based best techniques and methods to avoid injury
1:15 pm	Interscalene Nerve Blocks: How much volume is necessary for success and safety precautions
1:30 pm	Current Limitations of Ultrasound, Patient Safety and Prediction of the Role of 3D Ultrasound in Regional Anesthesia
1:45 pm	Is There an Ideal Technique of TAP Block and What Are The Real Evidence-Based Benefits of TAP Block?
2:00 pm	Understanding Nerve Stimulation and Opening Injection Pressure Monitoring during Nerve Blocks
2:15 pm	Ultrasound guided Ankle block: Technique and Considerations: Is Saphenous block always needed?
3:00 pm	Coffee Break
4:00 pm	Best ultrasound-guided videos competition Format: Each presenter has 4 minutes to present a technique. The audience will vote from 1-10 (1=worst, 10=best). Best 5 videos get a prize - an interview in NYSORA newsletter with nomination as the BEST NYSORA Asia 2014 video.
6:00 pm	Adjourn

Breakout Session:

Practical TEE (Transesophageal Echocardiography)

John Wasnick & Sanford Littwin, USA
Format: PBLD with cases presentation
 Limited to 20 participants
8:00 am - 10:00 am

Sunday, 9-March-2014

Registration: 7:00 am - 8:00 am

Obstetric Anesthesia Emergencies

Alan Santos, USA

Format: PBLD with cases presentation

Limited to 20 participants

8:00 am - 10:00 am

Workshop 1 - Intensive Comprehensive Ultrasound Guided Regional Anesthesia Workshop

8:00 am - 12:30 pm

WS-Coordinators: A. Lopez – C. Vandepitte

Faculty: TBD

Workshop's Description:

The Intensive Comprehensive Ultrasound guided regional anesthesia workshop is designed to offer an overview of anatomical facts, indications, tips for success, pharmacological choices and techniques to accomplish the sonographic views necessary for the successful performance of blocks.

The format of the workshop is optimally suited for retention of information and acquiring the necessary skills to employ ultrasound guided nerve blocks clinically. At the completion of the hands-on workshop, participants will have an opportunity to ask questions and to discuss the various aspects of ultrasound guided nerve blocks with the faculty.

Repeat of Workshop 1 in the afternoon

2:00 pm - 6:30 pm

Workshop 2 - Us Guided Interventional Pain Procedures

Workshop: 8:00 am - 12:30 pm

WS-Coordinator: TBD

Faculty: TBD

Workshop's Description:

This workshop will focus on the most common ultrasound guided interventional procedures in pain management practice, including blocks of the head, neck and trunk.

This session is best suited for participants with an interest and or experience in pain medicine. The sessions will begin with a 5-10 minute didactic overview before each technique demonstration. Participants will then be divided up into small groups for the hands-on session with the faculty. At the completion of the workshop, participants will have an opportunity to ask questions and to further discuss the various techniques with the faculty.
